

# Northern Colorado Periodontics

Dr. Paris, Dr. Shumaker and Dr. Allen are Northern Colorado's most experienced Board Certified Periodontists. Serving Northern Colorado for over 20 years, their practice has been the region's leader in providing the highest level of care and bringing the latest technology to their patients.

With over 30 years of combined experience, they offer the latest in periodontal disease treatment and dental implant surgical care. Among others, these procedures include:

- LANAP® scalpel-free laser surgical procedure for the treatment of gum disease.
- Surgical placement of single or multiple dental implants with associated procedures.
- Teeth in a Day / All-on-4 procedures for full mouth non-removable tooth replacement.
- Gingival (gum) recession treatment including the Chao Pinhole® procedure

They are dedicated to providing care in a compassionate and professional environment and offer sedation options for the anxious patient. They focus on comprehensive care while working with your general dentist in a team approach in cases where complex treatment coordination is needed. They look forward to enhancing your overall well-being and lifestyle by helping you to chew and smile with confidence!
